

Approved Certifier of Construction

*Making it easier to comply with
building regulations*

Building Standards
Approved Certifier

The Scottish
Government

WHAT IS AN APPROVED CERTIFIER?

Approved Certifiers of Construction or Design are suitably qualified and experienced professionals and tradespeople who operate under, and are registered by scheme providers such as SNIPEF. The scheme allows individuals to self-certify work that is subject to a Building Warrant, providing an alternative to using local authority building standards inspectors.

HOW DO I BECOME AN APPROVED CERTIFIER?

To join the scheme individuals (Approved Certifiers) must be employed by a business (Approved Body) who is a member of the Plumbing Industry Licensing Scheme or who meets the criteria of the Licensing Scheme. Individuals must be qualified at either Advanced or Technician level and hold appropriate qualifications for the scope of work they wish to verify. In addition they must sit a short Approved Certifier of Construction Course.

WHAT ARE THE ADVANTAGES OF BEING AN APPROVED CERTIFIER OF CONSTRUCTION OR DESIGN?

- The customer is assured that work will be carried out to current building standards requirements by trained and competent professionals
- Quicker and easier handling of completion certificates
- A discount on warrant fees

**NEW!!
TRAINING GRANTS
NOW AVAILABLE**

- Use of the Approved Certifier scheme logo, approved by Scottish Government
